[AC Optimization Requirement Reminder - ****Date Correction****](#)

The previous newsletter stated the incorrect date for the next training session:

Training is scheduled for July 8th, 2014 NOT June 7th, 2014

For participation in the 2014 initiative, the OPA has made it mandatory for all participating AC technicians to attend the 1 day AC Installation Optimization training course.

The course has been offered to technicians since the beginning of February 2013 for this mandatory requirement as of Jan. 1st, 2014. If your AC technicians have not already taken the training, please have them do so as soon as possible to continue to offer incentives for Air Conditioners.

The next available course will be in Mississauga on July 8th, 2014. [Click Here](#) to register or contact Angie Mantei at amantei@hrai.ca with any questions you have regarding the schedules & registration information.

Incentive Update is published quarterly by The Heating Refrigeration and Air Conditioning Institute of Canada on
